BTR Controls Announces New Owner Rik Bruns

BTR Controls is pleased to announced a leadership transition from founder and CEO Ronald Seyk to Rik Bruns, the company's long-time President and former Chief Technology Officer, responsible for the strategic direction and management of all aspects of product engineering, design and development. With more than 20 years at BTR Controls, Bruns has led the engineering vision and strategy behind the new AR3 Controller Platform, the company's latest high-performance product line. As the new owner, he plans to accelerate the AR3 Platform development and expand production into broader segments of the commercial door systems industry.

About BTR Controls Inc.

US-based BTR Controls Inc. develops and manufactures custom control products for industrial door, gate, and dock manufacturers, including innovative controllers, wireless safety and electromechanical devices, LED signaling systems, and real-time data acquisition solutions.
